

**RIDER D
PARALLEL GENERATION SERVICE**

(Filed in compliance with 83 Illinois Administrative Code No 430)

1. AVAILABILITY

Any Customer located in territory served by Utility may take service under this rider subject to the following conditions:

- (a) that Customer enter into a written contract with Utility, and
- (b) that Customer is a qualifying facility as defined in Subpart B, Part 292, Subchapter K, Chapter I, Title 18, of the Code of Federal Regulations.

2. CONDITIONS OF SERVICE

- (a) Phase and voltage of Customer's interconnected generation shall be identical to that provided by Utility.
- (b) Customer and Utility agree to indemnify each other for any tortious damages to any person or property resulting from any connection with work or services to be performed hereunder.
- (c) Customer shall pay the cost of interconnection including initial and future transmission, distribution, metering, service and other facilities costs necessary to permit interconnected operations with the utility.

3. RATES

The following charges and credits shall apply:

- (a) Facilities Charge - Customer shall pay for interconnection costs in accordance with paragraph 4(b) herein.

- (b) Energy Credit

Standard Energy Rate:

Kilowatt hours (kwh)	Credit per kWh
Delivered in Any One Month	4.4910¢

- (c) Utility shall prepare a statement monthly of the charges and credits determined by (a) and (b) above. Customer shall pay Utility for any charges in accordance with the Standard Terms and Conditions and Rules and Regulations and Utility shall pay Customer for any credits within 30 days of the meter reading date.

In lieu of the Standard Energy Rate shown above, the Customer may negotiate a rate in accordance with Section 430.80, "Contractual Arrangements Between Qualifying Facilities and Utilities", of 83 Illinois Administrative Code, Part 430.
